4) You will now see your first phone number in green in the upper left hand corner. The voter's name is at the top of the second white box (in this case, Maeve Maloney). Follow the script to ask to speak to the voter. If they are unavailable, indicate such using one of the "Non-Contact Online Phonebank" options in the top right.

If no one picks up, simply click the blue "No Answer/Busy/Skip" found in the lower left.

If the contact comes to the phone, continue reading the script in the lower white box.

*Note, the voter's polling place is directly below their phone number in blue.*

I'm calling to find out if you plan to vote for US Representative in the June 5 primary election. Your congressional district, CA 39, is currently represented by a Republican, Ed Royce. He's retiring because he knows his seat is among the most electorally vulnerable in the nation and you can help make sure he's replaced by a Democrat who will stand up for your community against the Trump administration. Your district is special, {First\_Name}. If Democrats win the election, they will have a much better chance of regaining control of the House of Representatives. They would be able to stop the attacks on health care, protect the social safety net, and hold Donald Trump accountable for his actions. That's why your vote matters so much.

**Will you commit to vote in the primary election on Tuesday, June 5th?**

- ☐ Very Likely to Vote
- ☐ Likely to Vote
- ☐ Maybe
- ☐ Unlikely to Vote
- ☐ Already Voted by Mail
- ☐ Intends to vote republican or 3rd party
